

OSSGA Technical Tour to South Carolina

October 16 - 19, 2017

**Mark Your
Calendar**

Martin Marietta - Berkeley Quarry

The Berkeley Quarry extracts limestone by both blasting and utilizing a drag line. Product types sold include fine, base, course and rip rap. Get up close to the drag line and the Kelly Bar Drill when we visit this site.

OceanaGold - Haile Gold Mine

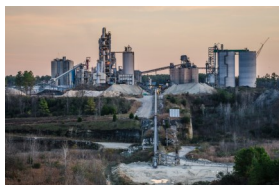

Haile Gold Mine is expected to mine and extract 30.5 million tonnes at 2.06 g/t for 2 million ounces of gold reserves. This is your chance to tour the mine and get up close to a state of the art production process.

Vulcan Materials - Pacolet and Columbia

Vulcan Columbia is in the middle of the city and only 2 miles from the SC State House. Tour this site and see how they work successfully in the middle of downtown.

Vulcan Pacolet is a granite site based on a 900 acre footprint & has approximately 400m tons of reserves. This site produces 1.5m tons per year shipping by rail & truck.

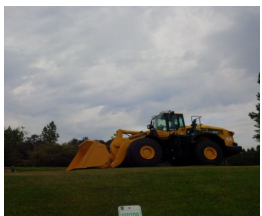

Argos - Harleyville

Visit the home of the biggest verticle cement mill in South Carolina. Argos Harleyville Plant has a capacity of 950,000 mt Clinker and 2,500,000 mt Cement.

Polydeck Screen Corporation

Tour Polydeck's 146,000sqft screen media manufacturing facility. You will get to see the injection molding station, welding department, frame fabrication department and more. You will also visit the Armadex product line and tool and die department.

Komatsu NMO

Get an inside glimpse at Komatsu's Newberry Manufacturing Operation. It has both a wheel loader assembly line and fork lift assembly line. See how these machines are built from the parts they pick, assembly, inspection, adjustment, paint repair and confirmation.

Bridgestone Off Road Tire Plant

November 2014, Bridgestone opened its first Giant Off Road Radial Tire Plant. The facility is over 1.5 million sqft. employing over 2,000 people. Get an in-depth tour of this massive facility.
